Resume File: sample_resume.pdf	**Evaluation Engine:** Deterministic Keyword Matcher v1.0

82%

Skill Coverage Score

Strong Skill Alignment: Your resume reflects most required competencies.

HONESTY NOTE: *This percentage shows how many of the job's required skills were found in your resume using keyword matching. It is not a real ATS score or a hiring prediction.*

Total Job Skills	Matched Skills	Missing Skills	Extra Resume Skills
17	14	3	19

Matched Skills (Found in Both Resume and Job)

✓ Agile / Scrum	✓ CI/CD	✓ Communication
✓ Django	✓ Docker	✓ Git
✓ Linux	✓ PostgreSQL	✓ Problem Solving
✓ Python	✓ REST API	✓ Redis
✓ SQL	✓ Teamwork & Collaboration	

Missing Skills (Required by Job, Missing in Resume)

✗ Amazon Web Services (AWS)	✗ Kubernetes	✗ Unit Testing

Skill Category Breakdown

Category	Required	Matched	Coverage
Programming Languages	2	2	100%
Web Development	2	2	100%
Databases	2	2	100%
Data Science & ML	0	0	0%
Cloud & DevOps	5	3	60%
Developer Tools	3	2	67%

Soft Skills	3	3	**100%**

Actionable Improvement Recommendations

[HIGH PRIORITY] Address Missing Key Skills (3 Missing)

The job asks for 3 skills not detected in your resume, including: Cloud & DevOps: Amazon Web Services (AWS), Kubernetes | Developer Tools: Unit Testing. If you have academic, project, or coursework experience with any of these technologies, add them to your resume.

[LOW PRIORITY] Mirror Job Terminology Accurately & Honestly

When updating your resume, use standard terminology matching the job description (e.g., if the posting asks for 'RESTful APIs', make sure you mention 'REST APIs' rather than ambiguous descriptions). Never claim skills you cannot defend in a viva or interview.
